

TECHNICAL THEATRE COURSES

COURSE OUTLINE

Performance Lighting & Sound Pty Ltd are presenting two **Technical Theatre Courses** in June and August at Federation Hall, Beenleigh PCYC.

These courses will be presented by industry professionals with first hand practical experience and will focus on technical aspects of theatre, including new and emerging technologies.

If you are a school student, teacher, small theatre group, working in entertainment venues, or are simply interested in learning more about broader roles within theatre, these courses will be perfect for you.

Topics covered will be presented in order to highlight their relevance to school drama, theatre and the performing arts. Participants will have many opportunities throughout the course to gain valuable hands-on experience and receive a Certificate of Participation.
